About me

I am Madison Skrypnek. I was born July 30, 2001 in Calgary, AB. I have been riding bikes since I was six years old and have been riding downhill mountain bikes the past 4 years. I am in grade 12 at Howe Sound Secondary in Squamish, BC.

I am focused on a few things in my life at this moment. Biking is front and centre. The 2018 race season had its ups and downs this year, but the biggest thing for me was that my training runs and most races were crash and incident free. My confidence on the bike has grown and my strength as a rider is really improving. Following the season I trained with Jaime Hill and got lots of riding in on the local trails. Bigger, steeper, faster. That is my motto. I did a lot more pump track and jump line riding this year and can say I really enjoyed it. I hope to do more in 2019 – maybe even a few dual slalom or pump track and slopestyle competitions. My Muay Thai fighting continues and I expect to fight in a few tournaments this winter. My focus is school right now and ensuring I get accepted into an Arts & Film or Motion Picture program, so I can explore a career as a special effects make up artist.

My goal for 2019 is to ride and compete DH in the BC Cup series and Crankworx events and enjoy the places biking takes me.

Highlights of the last year:

2018 Season: As I said, it was a mixed season. I did not find the podium as frequently as last year, but stayed close most races. Finishing fourth overall in the BC Cup Series was a big accomplishment for me. My favorite race weekend was the BC Cup #6 race in Big White, BC. It is my favorite course – BURLY! I made the podium and felt amazing. This year Crankworx didn't work out as I only raced in a single race and had an insect bite that caused my eye to swell over and did not get to race the Canadian Open DH.

I am dedicated to pursuing success through great habits and hard work. I am a fearless competitor and I've been told I am tough as nails....

Nice things people say

“ I have felt very fortunate to have you in the Outdoor Leadership program to be able to see you at a different level than others in this building. You are such a talented, gifted and dedicated young lady. I have always admired your ability to do so many things at such a high level. Your passion for life and the school has been such an incredible thing for the others to see. You are a true role-model in this building for others and I thank you giving everything you had to this place. You’ve made a huge impact on my life and I am grateful for your time. Thank you for everything and all the best.”

Court “Rusty” Rustemeyer , Madison’s Outdoor Leadership Teacher grade 7,8,9

How can I help you?

There are so many products and so much cool gear out there. I would totally love to help some companies get noticed. It's amazing how so few girls rock downhill mountain biking. I like that I can stand out. It is inspiring to meet the best and know that so many would want to do this if they knew how much of a blast it is!

Obviously the girls I have met want to know what I am doing, or riding, or wearing so they can do the same. As a team, my brother and I ride in the BC Cup and NW Cup race circuits, as well as Crankworx. There's not too many cool brother and sister acts out there!

Thinking about the 2019 season again already and can't wait for all the travelling we do as a family. So many new places to see and great people to meet.

I would like to know is how you think we could partner to reach out to all the awesome girls out there and get them excited about downhill bike racing? I can help you reach out to that group of girls. I have done lots of speaking and acting before and feel very comfortable in front of an audience. I can and would be a great ambassador for you. Can't wait to hear from you!

My personal Instagram account has 1,152 followers, our #xspeedgt account has 332, our Facebook account has 1,300+ Friends. With my brother's 1,600 Instagram followers, **we have over 4,300 eyes** watching what we do. Maybe we can tell them about your products?!
